In regard to Greg Thiel, elder and teacher

I, a student in three classes under Mr. Thiel, was asked to the podium after class by him to sign the role sheet. At this time, he told me that he had a heart for me. Days later he gave me a ride home; during which, the subject of french kissing was brought up. We began worshipping in church together, but this soon diminished as Mr. Thiel would not like the music the timing etc..

Sexual things were continually brought up during conversations as I began to run errands with him after school. He preferred, in my opinion, to spend time with me watching movies, eating lunch or dinner at his home or restaurants, and watching videos. During the time in which we were along in his home or my apartment, he would bring up sexual things, rent videos with sex scenes in them and put sexual pressure on me. He did this many times.

I would say no to intercourse, ask him to stop, suggest that one of us go home, or ask him to leave. At one point, we were at my apartment in bed half disrobed and I said I was going to keep my pants on as I buttoned them. He then said he was going to die. I said, "You are not going to die." And, he said that yes was. I felt badly; we had intercourse; and I lost my virginity. He had me promise not to tell anyone afterwards. Several times after this, he brought up sexual things and pressured me for sexual intimacy. I said no at all of these times; and realizing the situation was hopeless, I broke off contact with Mr. Thiel outside of church or school.
